

## Company Overview

Esperion is a small company doing big things. Our innovative team of lipid management experts are committed to leveraging our understanding of cholesterol biosynthesis to develop innovative therapies for the treatment of patients with elevated low-density lipoprotein (LDL-C). At Esperion we are passionately committed to bringing complementary therapies to the hypercholesterolemia space that address unmet patient needs in a way that is “patient-friendly, physician-friendly and payer-friendly.”

Esperion’s corporate headquarters are located in Ann Arbor, MI. The Company offers a competitive salary including a performance-based bonus program and stock-based compensation, a comprehensive benefits package including a 401(k) matching plan and health insurance, and paid time off and holidays.

## Position Title: Executive Director, Global Regulatory Affairs (JAPAC)

The Executive Director, Global Regulatory Affairs (JAPAC) will represent Esperion in Agency interactions and is accountable for the relationship building and implementation of the international regulatory strategy, specifically for the JAPAC region. This role will be accountable for developing the JAPAC regional regulatory strategy to lead achievement of JAPAC relations and a rapid approval aligned with product and corporate objectives. This role will provide operational and strategic regulatory leadership for global development programs. Available as a remote, work from home opportunity.

## Preferred Location: Remote – US

## Essential Duties and Responsibilities\*

- To provide management and leadership by advising on the development and execution of regulatory strategy in JAPAC including plans for regulatory agency interactions.
- To provide regulatory advice into JAPAC regional portfolio activities in support of short, medium and long-term business goals and to enable regional prioritization of such portfolio (applicable to early development, registration and life cycle management).
- Directly accountable to develop and implement regional regulatory plans.
- To provide oversight of Regional Regulatory Leads/consultants/partners/contractors in technical procedures of regional regulatory activities.
- Interact with Global Regulatory Leads (GRLs) and other Product Team members for managing and resolving cross-functional issues.
- Execution of the regional regulatory product strategies.
- Providing inputs into the regional Portfolio planning activities.
- Advising the regional regulatory leads on regulatory agency considerations in strategy development.

## Qualifications (Education & Experience)

- BS degree in a relevant discipline with a minimum of 15 years of industry experience in Regulatory Affairs, with at least 7 years of recent experience in JAPAC area required; Advanced degree preferred.
- Leadership Experience with JAPAC regulatory, business, strategy and submissions required.
- Proven track record of successfully developing and implementing regulatory strategy for multiple submission types including large submissions in the JAPAC region with intimate knowledge of the Common Technical Document.
- Strong policy and intellectual regulatory knowledge and understanding of regional (JAPAC) and global regulatory science and overall drug development processes and strategies.
- Ability to critically evaluate risks to regulatory activities and develop strategic action plans to mitigate those risks.
- Experience successfully building, coaching, and managing regulatory teams.
- Strong ability to influence across cultures
- Excellent written and oral communication skills with at least one regional language fluency preferred.
- Lipid Drug Development and Cardiovascular experience is preferred.
